Maths	The principal focus of mathematics teaching in Key Stage 1 is to ensure that pupils develop confidence and mental fluency with whole numbers, counting and place value. This should involve working with numerals, words and the four operations, including with practical resources [for example, concrete objects and measuring tools]. At this stage, pupils should develop their ability to recognise, describe, draw, compare and sort different shapes and use the related vocabulary. Teaching should also involve using a range of measures to describe and compare different quantities such as length, mass, capacity/volume, time and money. By the end of Year 2, pupils should know the number bonds to 20 and be precise in using and understanding place value. An emphasis on practice at this early stage will aid fluency. Pupils should read and spell mathematical vocabulary, at a level consistent with their increasing word reading and spelling knowledge at Key Stage 1.		
Science	Growing Up Using Our Senses	What's In Your Habitat? Plant Detectives Sensing Seasons Plants	The Apprentice Gardener Material Shaping Up
Computing	Logging on Purple Mash: 2Paint/2Write Clicker 5: Talking books	Using the internet j2e5: Creating and saving work Purple Mash: 2Go Turtle	Finding and saving images j2e5: Creating websites Purple Mash: 2Beat / 2Sequence
History	The Lives of Significant Individuals Historical Figures, Family and Themselves Events within the children's own lives		Events beyond living Memory Kings and Queens
